

**January 17 – 18, 2019**

**Lawrence Berkeley National Laboratory,  
Berkeley CA**

This two-day workshop is intended to prepare potential Workforce Development & Education (WD&E) interns through an immersive experience, giving applicants a sense of the breadth of research, world-class scientific instruments, and culture at Berkeley Lab.

- Career opportunities webinar by Department of Energy Office of Science
- Lab overview and scientific talk
- Berkeley Lab User Facility tours
- Engaging activities with mentor scientists and engineers
- Network with current WD&E interns

### **Accommodations**

- Housing in single-occupancy rooms at Berkeley Lab Guest House
- Air travel if 50+ miles from Berkeley Lab
- All supplies and materials

### **Audience**

Full-time sophomore – senior undergraduates and post baccalaureates from 2-year or 4-year colleges or universities

### **Program Benefits**

Students who participate in the workshop must apply for the Community College Internship (CCI) for 2-year institutions, or the Science Undergraduate Laboratory Internship (SULI) for 4-year institutions. Both of these programs offer students and recent graduates the opportunity to become part of a scientific research team for a summer, fall, or spring term.

### **Applications Due November 30, 2018**
